Redbox Apparel — Complete Feature List

Version 2.0 | March 8, 2026 | 110 Features across 7 Portals

Platform: Next.js 15 + Convex + Clerk | **Portals:** 7 | **Roles:** 8 | **Database Tables:** 43 | **Total Features: 110**

Customer Storefront 31 Features

#	Feature	Description
1	Homepage	Hero banner carousel, brand showcase, category grid, trending products, hot deals, promotions display, location-aware nearest branch badge with distance, flash sale countdown timers, live real-time ticker with stock/promo/drop updates
2	Product Browsing	Browse by brand, category, and tag with gender filtering (All / Women / Men / Kids), infinite scroll with sticky filter bar, back-to-top FAB
3	Product Search	Full-text search with smart autocomplete — grouped suggestions for brands, categories, and products as you type
4	Product Detail Page	Variant selection (color swatch with live image swap, size), full-screen image lightbox with pinch-to-zoom, pricing, brand info, stock urgency indicator ("Only X left!"), price drop alerts, restock notifications, saved size auto-selection
5	Quick View	Bottom-sheet product preview without leaving the current page
6	Shopping Cart	Add/remove items, quantity adjustment, stock validation, free shipping progress bar with visual ₱999 threshold, shipping fee transparency
7	Checkout	Address selection, payment methods (COD, GCash, Maya, Card, Bank Transfer), 3 delivery speeds (Standard/Express/Same-Day), delivery date estimates, BOPIS (Buy Online Pickup In-Store) with branch selection, guest login wall
8	Order Tracking	Order history with status filtering, order detail with shipment/courier tracking
9	Customer Account	Profile view, address management (add/edit/delete/set default), order history

10	Wishlist	Save/remove favorites, add to cart from wishlist, out-of-stock indicators, share wishlist via unique link with public view page
11	Product Reservations	Reserve items for branch pickup with auto-generated confirmation code, live countdown timer with urgency colors
12	Recently Viewed	Auto-tracked browsing history with product suggestions
13	Branch Locator	View retail branch locations, contact info, and star rating with localStorage persistence
14	Product Reviews & Ratings	Submit reviews with star rating and text, verified purchase badges, size feedback aggregation ("runs small / true to size / runs large")
15	Product Recommendations	"Complete the Look" outfit suggestions and "Customers Also Bought" co-purchase recommendations on product pages
16	Store Stock Checker	Check real-time branch availability on product pages — green/gray dot indicators per branch with stock counts
17	Voucher Collection	Browse available discount vouchers, collect vouchers to account, auto-apply at checkout
18	Loyalty Dashboard	Points balance with tier status (Bronze/Silver/Gold/Platinum), progress bar to next tier, transaction history with cursor pagination
19	New Arrivals	Dedicated page showing products added in the last 30 days with gender filter tabs, NEW/HOT badges on product cards
20	Bestsellers	POS-powered bestseller rankings from real 30-day sales data, social proof ("42 sold"), gender filters
21	Buy Again	Reorder from past purchases — preview carousel on account page with full dedicated page, one-tap navigation to product
22	Self-Service Returns	Request returns from order history with reason selection, photo upload option, refund method choice
23	Style-Centric Navigation	Browse by lifestyle/occasion — Street Style, Office Ready, Weekend Vibes, Athletic, Date Night — with tag-based product matching, filters, and infinite scroll
24	Saved Size Preferences	Remember preferred sizes per category (Tops, Bottoms, Shoes) via localStorage, auto-selected on product pages
25	Post-Purchase Size Feedback	"How did the fit feel?" cards sent after delivery — runs small / true to size / runs large — feeds size recommendation data
26	Price Drop Alerts	Watch products for price drops with bell toggle, notification when price decreases
27	Restock Notifications	"Notify me when back in stock" for out-of-stock items, automated alerts on restock
28	Flash Sale Countdown	DD:HH:MM:SS dark-box countdown timers on flash sale banners with real-time tick

29	Reservation Countdown	Live countdown timer on active reservations showing hours/minutes remaining with urgency color transitions
30	Image Lightbox	Full-screen product image viewer with swipe navigation, pinch-to-zoom, keyboard controls
31	Free Shipping Threshold	Visual progress bar in cart showing distance to ₱999 free shipping, dynamic shipping fee display

---

POS System (Point of Sale) 17 Features

#	Feature	Description
32	Shift Management	Open/close shifts with cash fund initialization and balance verification
33	Barcode Scanning	Camera-based scanner, USB barcode gun support, manual SKU entry
34	Product Lookup	Browse by brand/category with real-time stock display per branch
35	POS Cart	Table-format cart with item management, quantity entry, line totals
36	Discount Application	Senior citizen & PWD discounts with VAT-exempt calculation
37	Promotion Application	Apply active promotions with auto-calculated discounts based on promo rules
38	Payment Processing	Cash (with change calculation), GCash, Maya payment methods
